

5 MODULES TRAINING: CRANIO-SACRAL THERAPY ON HORSES AND SMALL ANIMALS, FROM THE STRUCTURE TO THE STILLNESS, INCLUDING WORKING ON THE EMOTIONAL BODY OF THE STUDENTS AND ANIMALS

By Sílvia Martí Korff

It is a 5 modules training in which every technique is explained with slides, then practiced on tables among the students and finally with the animals. The principles are a more structural Cranio-Sacral Therapy, Cranio-Sacral Biodynamics and Deep Listening from the Stillness. We will be working through the different modules from the physical body to the emotional body, including the bounds between animals and humans.

This training follows a sequence, that is the reason why the students commit to attend all the modules. For the students having done previous Cranio-Sacral Therapy courses, we do recommend attending the whole training as well, because there are always some updates on the content, and it allows the student to acquire more deeper skills. Some discounts on the three first modules fees will be available for students having attended previous courses though by Sílvia Martí Korff. Labs will be performed on humans, horses, and dogs.
